

Mixed APIs Documentation

First you will see this screen:

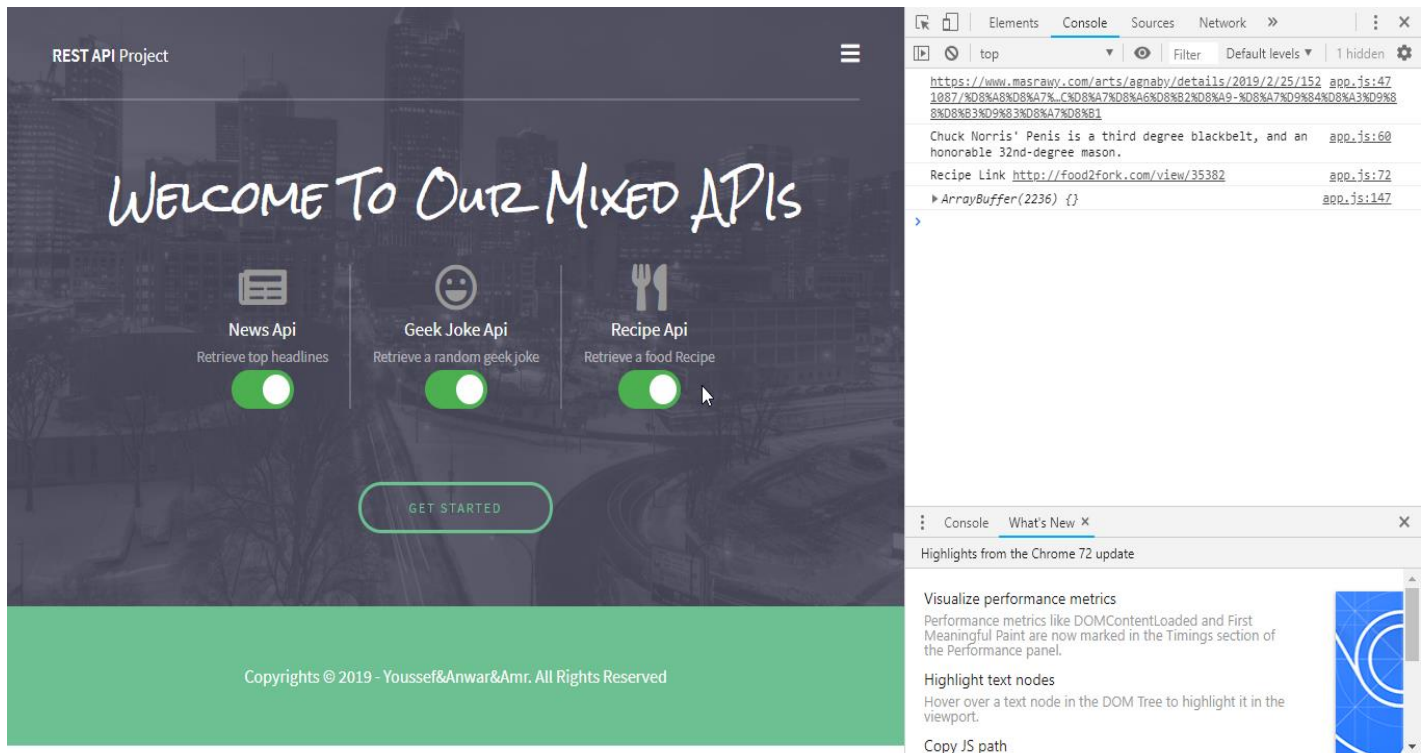

And turning on the toggles buttons, this means that you want to apply its API:

for Example:

*this means that you want to apply the Geek Joke API and the Recipe API
if you press "Get Started" you will publish the result of the two APIs in a tweet*

And if you open the Developer tools in this page and press on console you can see the outcome of the APIs like figure (3).

To see the tweet, you can press on the link that will appear below
